The Industry Exchange Programme is all about seeing good practice in practice. It enables employers to benchmark their performance against their peers, exchange ideas and share invaluable experience.

The Academy Industry Exchange provides employers with a practical source of inspiration and is a key vehicle to drive innovation across business, industry and the sector as a whole.

Delivering real insights into advanced manufacturing processes and techniques, it constitutes a first-rate business and staff development tool and offers excellent networking opportunities. Aimed in the main at senior and middle management, it is also suitable for supervisory and technical staff if they play an active role in their company's business improvement processes.
